## SUMMARY

Frontend developer specializing in creating intuitive and attractive interfaces using HTML, CSS, Sass, JavaScript and the React technology stack. Dear Recruiter, you can read more about me in my portfolio by clicking [here](#). Take your time )

## PROJECT EXPERIENCE

### [PORTFOLIO](#)    [GIT Repository](#)

`<jsx/>` `<sass/>` `<react/>`

- Portfolio with my projects and links to their repository
- Can download a resume
- The site is adaptive and cross-browser, which ensures a convenient display on different devices and browsers.
- For routing and moving between pages on the site, I integrated the react-router-dom library. This allows me to create multiple pages and provide navigation without reloading the page.

### [STORE](#)    [GIT Repository](#)

`<html/>` `<sass/>` `<JavaScript/>`

- Rendering of product cards by their respective categories
- Implemented modal windows, tabs, pop-up adaptive menu
- Logic for searching products by name
- Implemented shopping cart, add item to the cart, you can also mark the item as liked
- Calculating the cost of an order
- Custom slider/custom scroll bar
- Adaptive and cross-browser layout

## ACADEMIC BACKGROUND
